

UPDATE ON GOVERNMENT GRANTS AND ASSISTANCE

WEEK ENDED 14 OCTOBER 2022

Name of Grant:	Targeted Call For Research: Loneliness, Social Isolation And Chronic Disease Management
Federal/State:	Federal
Details:	<p>A TCR is a one-time solicitation for grant applications to address a specific health issue and stimulate research on areas of national importance where there is a significant knowledge gap. A TCR specifies the scope and objectives of the research to be proposed, application requirements and procedures, and the review criteria to be applied in the evaluation of applications submitted in response to the TCR.</p> <p>The TCR on loneliness, social isolation and chronic disease management 2022 grant opportunity aims to support research that develops an evidence base for future policies, interventions and initiatives to assist people experiencing loneliness and/or social isolation to manage their chronic disease.</p> <p>The objectives of the grant opportunity are to:</p> <ul style="list-style-type: none"> • Understand how social isolation and loneliness leads to a decline in health status, poor disease management or reduced rehabilitation for people with chronic disease. • Identify interventions that address loneliness and social isolation that can be incorporated into the management of patients with chronic disease. • Develop screening tools and resources which equip health and community service providers to assist individuals who may be at a risk of health deterioration and inadequate treatment of chronic conditions due to social isolation and/or loneliness
Closing Date:	30 November 2022
Paper No:	014-477
Name of Grant:	Future Fellowships for funding commencing in 2023
Federal/State:	Federal
Details:	<p>Future Fellowships reflects the Australian Government's commitment to excellence in research by supporting excellent mid-career researchers to undertake high quality research in areas of national and international benefit.</p> <p>The Future Fellowships objectives are to:</p> <ul style="list-style-type: none"> • support excellent basic and applied research and research training by outstanding mid-career researchers to be recruited and retained by universities in continuing academic positions; • support national and international research collaboration; and <p>enhance the scale and focus of research in Australian Government priority areas.</p> <p>The intended outcomes of the Future Fellowships scheme are:</p> <ul style="list-style-type: none"> • expanded knowledge base and research capacity in Australia; and • economic, commercial, environmental, social and/or cultural benefits for Australia. <p>Preference will be given to Australian researchers.</p>
Closing Date:	30 November 2022
Paper No:	014-606

Name of Grant:	Industry Laureate Fellowships for funding commencing in 2023
Federal/State:	Federal
Details:	<p>The Industry Laureate Fellowships scheme creates a pathway to support academic researchers in establishing careers in industry, and industry-based researchers to work in university settings, with the aim of increased two-way mobility and skill-building in research collaboration, translation and commercialisation.</p> <p>The Industry Laureate Fellowships scheme objectives are to:</p> <ul style="list-style-type: none"> • develop a strong pipeline of researchers in Australia with capabilities in research collaboration, translation and commercialisation; • open up and maintain a diversity of career pathways traversing university and industry settings; • increase strategic engagement and alignment between universities and industry; • contribute to the solving of industry-identified challenges and opportunities; and • create commercial, economic and other benefits for Australia through enhanced translation and commercialisation, including the development of start-up companies. <p>The intended outcomes of the Industry Laureate Fellowships scheme are:</p> <ul style="list-style-type: none"> • provide leadership in the development of high quality and impactful collaborations between university and industry personnel; • fund significant programs of research that deliver step-changes across a variety of industry settings; • provide an excellent research training environment and exemplary mentorship to nurture the development of collaboration, commercialisation and translation skills among early career researchers and Higher Degree by Research (HDR) students; and • attract and retain, within Australia, outstanding researchers and research leaders of international reputation with demonstrated capacity for collaboration, commercialisation and/or translation.
Closing Date:	17 November 2022
Paper No:	014-144
Name of Grant:	NHMRC-NIHR Collaborative Research Grant Scheme 2022
Federal/State:	Federal
Details:	<p>The NHMRC-NIHR Collaborative Research Grant Scheme 2022 supports Australian participation and collaboration in leading international collaborative research through the United Kingdom's National Institute for Health and Care Research (NIHR) Health Technology Assessment (HTA) Programme. The HTA Programme funds independent research about the effectiveness, costs and broader impact of healthcare treatments and tests.</p> <p>NHMRC will invite Australian researchers who are listed on the successful applications submitted during Stage 1 to apply for NHMRC support of the Australian component of the research under the following topics:</p> <p>22/85 Positive airway pressure therapy in chronic obstructive pulmonary disease-obstructive sleep apnoea overlap syndrome;</p> <ul style="list-style-type: none"> • 22/87 Nebulised antibiotics as prophylaxis against respiratory tract infection in the first year after tracheotomy or laryngectomy; • 22/90 Self-care of children and young people with neurodisability; • 22/91 Rescue packs in chronic obstructive pulmonary disease;

	<ul style="list-style-type: none"> • 22/92 Withdrawing long term macrolides in bronchiectasis; • 22/93 The clinical and cost-effectiveness of colesevelam for the treatment of bile acid diarrhoea; • 22/94 Optimal management of perianal Crohn's disease.
Closing Date:	23 March 2023
Paper Number:	
Name of Grant:	Ghost Nets Innovative Solutions Grant Program
Federal/State:	Federal
Details:	<p>The Ghost Nets Innovative Solutions grant program provides up to \$3 million to fund interested and capable organisations and community groups to undertake projects to better detect, collect or dispose of ghost nets and other harmful forms of marine debris in the northern Australian waters and coastal areas, and to raise public awareness of the issue.</p> <p>The program was established as part of the Australian Government's Ghost Nets Initiative. It will run over two years from 2022-23 to 2024-25.</p> <p>The program objectives are to:</p> <ul style="list-style-type: none"> • Provide a direct environmental benefit by increasing the capacity of communities to deal with ghost nets and marine debris in remote parts of northern Australia, through: <ul style="list-style-type: none"> – Fostering ongoing new collaborative partnerships; and – Seeding innovative new ideas • Increase public awareness of the ghost nets and marine debris issue through: <ul style="list-style-type: none"> – Supporting education and awareness-raising activities • Bolster new employment and economic opportunities in regional and remote communities through ghost nets and marine debris projects that will: <ul style="list-style-type: none"> – Initiate the establishment of long-term employment generating activities in the community – Provide wider economic opportunities to the local community, for example local suppliers and services that contribute to the project's activities.
Closing Date:	5 December 20122
Paper Number:	014-730
Name of Grant:	Destination Australia Program 2023 (Round 4)
Federal/State:	Federal
Details:	<p>The Australian Government invites applications through a targeted competitive process to deliver services under the International Education Support Outcome – Destination Australia Program 2023 (Round 4) from 2022–23 to 2025–26.</p> <p>The grant opportunity provides grants to Australian tertiary education providers in regional areas to provide scholarships to domestic and international students, promote those scholarships for students, and promote tertiary education in regional Australia. It helps achieve the International Education Support Outcome by facilitating study in regional Australia for international and domestic students.</p>

	<p>For Round 4, preference will be given to applications supporting domestic students and international students studying courses aligned with the Australian Government's National Skills Priority List.</p> <p>Domestic scholarships will be prioritised for students from underrepresented groups, such as low-socioeconomic status (low-SES), those who are first in family to tertiary study, those living with a disability and First Nations people.</p>
