

BUSINESS ADVISORY SERVICES UPDATE BACKING YOUR PROFESSIONAL ADVICE

Accountants have you ever thought about how many different commercial subjects that you talk to clients about?

What happens when the client gets back to work, do they have a full recollection of what you have discussed?

Are they able to give a full recount of the conversation to their business partners or their spouse?

Have you overcome the problem of recollection by giving your client some notes on the matters discussed?

In my experience many accountants do not hand any sort of written material or send a short video to a client to reconfirm the matters discussed.

ESS BIZTOOLS has developed papers on a wide range of commercial matters to assist accountants to be able to send confirmation of the matters that were discussed whether it relates to:

-  Buying a business
-  Selling a business
-  Characteristics of a well-run business
-  How does a Discretionary Trust operate?
-  What is a Crowd Sourced Funding Equity Raising Company?

ESS BIZTOOLS have about 575 additional papers to these in our product packages.
