

BUSINESS ADVISORY SERVICES UPDATE HAVE YOU DONE COMPLIANCE FOR TOO LONG?

Does any of this sound familiar?

- ✚ I want to do more than just taxation and compliance work!
- ✚ I am an experienced, qualified accountant and my firm has been in business for over 15 years – I have a growth mindset and I am always looking for ways to continue to grow my business.
- ✚ I am well respected by my SME clients who are beginning to ask more from me.
- ✚ My team has been trained to undertake compliance work and are capable of delivering compliance assignments.

But, you hang around worried about the final delegation – but this is the opportunity that you have been thinking about for some time – to implement your Action Plan to diversify your business activities and supply value adding services to your clients.

A colleague recently confided to me that when he finally took the step to remove himself from the day-to-day compliance tasks every client said to him “why did it take so long for you to make up your mind?”

If this all sounds familiar **ESS BIZTOOLS** has a range of products and an implementation system. Please give me a ring on 1800 232 088 to discuss a strategy for your firm or visit our website www.essbiztools.com.au to view our wide range of packages.
